Foodlogik

Web Portal

Login User Guide

The Login Screen.

Function.

The Login screen is the security screen at the start of a session for the Web Portal that has not been logged in automatically. If your session is invalid for any reason, including being timed out or logged out, you will be re-directed to this screen.

Appearance.

Foodlogik

Web Portal

Login User Guide

Description.

The screen shows the company logo, and the company name. The user must enter the user id and password to proceed to the main menu. This screen can be bypassed with commend line parameters to windows short-cuts or URL query string parameters.

Controls.

User id entry box.

Password entry box.

Login button.

About Link.

Foodlogik Link.

Support Link.

Help Link.

Usage Instructions.

Enter the user id in the box provided.

Enter the password in the box provided. It will not appear when typed.

Clicking the "**Login**" button will validate the input and either display an error message on this screen or re-direct you to the main menu.

Click on the **About** Link to display the [Login About Screen](#).

Click on the **Foodlogik** Link to be directed to the Affinitus Foodlogik website.

Click on the **Support** Link display the [Login Support Screen](#).

Click on the **Help** Link display the [Login Help Screen](#).
